

143829 to 143837.

From Australia. Seeds presented by F. H. Baker, Richmond, Victoria. Received March 20, 1942.

143829 to 143834. ACACIA spp. Mimosaceae.

143829. ACACIA DECORA Reichenb.

A shrub with spatulate phyllodes 2 inches long and numerous racemes made up of globular heads of small yellow flowers. Native to Queensland, Australia.

For previous introduction see 90839.

143830. ACACIA FALCATA Willd.

An evergreen tree 20 to 30 feet high, with few slender branches and small yellow flowers in dainty spherical clusters on racemes borne in the axils of the dark-green, glossy, falcate leaves. The timber is hard, heavy, and tough.

For previous introduction see 106678.

143831. ACACIA HOWITTI F. Muell.

A shrub, often 15 feet high, with flexible branchlets, bearing curved, lanceolate, dark-green phyllodes and axillary clusters of small yellow flower heads.

For previous introduction see 130691.

143832. ACACIA MYRTIFOLIA Willd.

A tall shrub with angular branchlets and ovate phyllodes edged with pink, and heads of rather large yellow flowers in racemes. Native to Australia.

For previous introduction see 130692.

143833. ACACIA OXYCEDRUS DC.

143834. ACACIA SUAVEOLENS (J. E. Smith) Willd.

An Australian shrub up to 6 feet high, with linear to lanceolate phyllodes and small heads of yellow flowers in axillary racemes.

For previous introduction see 106692.

143835. ANGOPHORA SUBVELUTINA F. Muell. Myrtaceae.

143836. CALLITRIS ROBUSTA (A. Cunn.) R. Br. (*Frenela robusta* A. Cunn.)
Pinaceae. Cypress-pine.

For previous introduction see 140012.

143837. SYZYGium SMITHII (Poir) Niedenzu (*Eugenia smithii* Poir.)
Myrtaceae.

An evergreen tree, sometimes 80 to 120 feet in height, with ovate or lanceolate leaves 2 to 3 inches long. The small, white, purplish-tinted fruits are produced in profusion, are acidulous and wholesome, and are eaten by the natives. Native to eastern Australia.

For previous introduction see 34312.

143838. PENSTEMON HAYDENI S. Wats. Scrophulariaceae.

From Nebraska. Seeds presented by Glenn R. Viehmeyer, Superintendent, Niobrara State Park, Niobrara. Received March 31, 1942.

A plant 10 to 15 inches tall, with dense spikes of showy bright-blue flowers, and bluish-green, lanceolate leaves.

143839. GOSSYPIUM. Malvaceae.

Cotton.

From Algeria. Seeds presented by Robert D. Murphy, Counselor of the American Embassy, Algiers. Received March 24, 1942.
